

A Leading Representative of Premier Global Brands that Deliver Quality, Value & Service to our OEM, Distributor and Maintenance Customers

Local Support For Global Businesses

INTERNATIONAL MANUFACTURER'S REPRESENTATIVES

EELLC focuses all of our efforts on developing and delivering customer value. We vet our international partners for operations, quality and sustainability. EELLC and our partners have broad experience servicing top global firms.

- Mining
- Construction
- Advanced Gear Design, Manufacturing & Inspection
- Oil & Gas
- Motion Control
- Cranes
- XYZ Cutting Tables

- Power Transmission
- Automotive
- Mechanical Lift and Hoists
- Brass/Bronze/Copper Components
- Wastewater & Sludge
- Steel & Gray OEM Castings
- Home Mobility & Movement

Industries & Applications Served:

Gearing/Hydraulic Submersible Pumps

- Gear Rack & Pinions
- Lead/Power Screws & Power Nut Products
- Rugged Hydraulic Submersible Pumps
- Power Packs fully Compatible

Mine Wear Parts

- Cone/Impact/Jaw Crushers
- Screeners
- Blow Bars
- Manganese Alloys

Software/Consulting

- Gear Design/Manufacture/Inspection
- 5-Axis Machining
- Closed Loop Gear Machining (CLGM)
- Product Safety Standards/Certification

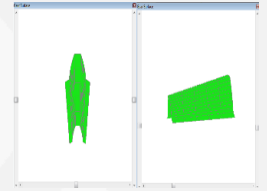

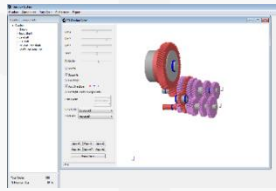

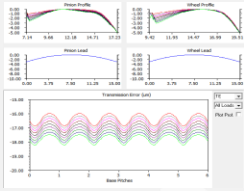

OEM/Custom Castings

- Steel/Gray Iron/Bronze/Brass/Copper
- OEM/Custom Quantities
- Centrifugal Casting/Forging
- Fully Certified Material Test/Verification Lab

Halifax Rack and Screw is a global leader in the manufacture and supply of gear rack, pinions, lead screws, power nuts and hardware. For more than 50 years they have served the construction, machine tool, mobility, power transmission, lifts and elevators, oil & gas and automotive markets. For additional information please visit www.halifaxrs.com

Dontyne Systems focuses on the development of advanced gear design software to enable customers to reduce costs and streamline manufacturing processes. Their modular system allows for optimization during the design, manufacture, test and inspection of gears and gear trains. www.dontynesystems.com

QuaX Pumps is a manufacturer of rugged high quality 2-8 inch hydraulic submersible pumps and power packs for water and sludge. They also offer a wide selection of application designed impellers for specific materials such as stringy solids, acidic liquids, crude oil spills, fruit processing and various size solids. www.quaxpumps.com

Hysan Technology Inc. was formed to provide high quality casting and wear parts. The company focuses on certified material and part quality which has led to global growth and repeat clients. For more information on the Hysan product line please visit www.hysanmachineryparts.com

Yongcheng Group is a major supplier of brass, bronze and copper castings as well as cast iron and steel alloys. They provide a mix of client solutions including continuous casting, centrifuge castings and CNC machining. Their OEM clients include the top global brands. Yongcheng also houses one of the small number of fully accredited metals labs in China. www.cnyongcheng.com
